California Maternal Quality Care Collaborative (CMQCC)

The California Perinatal Programs hub has created care guidelines for obstetricians and pediatricians in caring for pregnant patients and children who are positive for COVID-19.

<https://caperinatalprograms.org/#obstetric>

Centers for Disease Control and Prevention (CDC)

These infection prevention and control considerations are for healthcare facilities providing obstetric care for pregnant patients with confirmed coronavirus disease (COVID-19) or pregnant persons under investigation (PUI) in inpatient obstetric healthcare settings including obstetrical triage, labor and delivery, recovery and inpatient postpartum settings.
